

CVMF Hospital Accounts for Pet Care

In addition to the General Fund, the CVMF has another program for funding veterinary care for hospital patients.

An "**Individual Hospital Account**" can be set up for your hospital. Funds generated from YOUR FUNDRAISING EVENTS or DONATIONS will be deposited into your account. *

Donors can select your hospital from the drop-down menu option included on our website's *Direct Donation* button.

When funds are needed for veterinary patient care, call or email the CVMF for the specific amount needed. Requested funds from your hospital account will be sent to you by check within 3 business days.

**A nominal fee is deducted for account administration*
